

## Summer news from ES-MN...

Spring and summer are busy periods at ES-MN. We are happy to share with you a brief recap of the last couple of months in the school.

### Creativity to stimulate learning

ES-MN's dedicated team of teachers continues to include various creative elements into the curriculum in order to stimulate learning. In addition to the more traditional English classes, these past few months have included a weekly English speaking day, a role-play day and an English singing competition.

The students continue making progress in the English language while gaining confidence, as they are encouraged to perform and speak in front of their classmates.

Moreover, creative activities are added to the computer curriculum every month. These past months have included a computer quiz where the students are tested on how quickly they can use a search engine to find relevant information online, a Power Point competition and a "Fun Photoshop" workshop where the

students learned more about the different aspects of Photoshop and how to use the software when creating presentations.

### Preparing for the High School entrance exam

Over the last few months the teachers have placed significant focus on assisting the older students to prepare for the High School entrance exam. Weekly review classes in the main three subjects English language, math and literature have been held in order to make sure all students were well prepared to take the test.

## The "Friendship Journey" initiative

In order to bridge the gap between the older and more experienced students and the younger students, an activity named the "Friendship Journey" was initiated. One class of younger students meets one class of older students on a regular basis and plan an activity that they enroll in together outside the school. We have already started to witness some very positive results from this new initiative as the ambiance between the students have gotten better and the students spend more time engaging with friends outside their own class and age group.

A few achievements worth mentioning..

## Toan became the first ES-MN student to study abroad

On June 13th, Toan Luu of class 1D left for India where he has been awarded a full scholarship to study Business Administration at a renowned university. Toan has settled in well in his new country and is so far enjoying his time at university. He has enrolled in many student circles and varies student groups and have reported back to ES-MN that he is doing very well.

29 new students got accepted to High School We are proud to announce that all students who took the High School entrance exam passed. Ten students got accepted to schools in Phan Thiet and will be living in ES-MN's student dormitory, and nineteen students got accepted to high school in Mui Ne village and will continue living with their families. Four students got the highest scores in English in the entire province.

Two more students were offered full time positions Two more ES-MN students were offered full time positions at the luxury resorts Full Moon Village and Mia Resort in Mui Ne.

We wish you all a beautiful summer and thank you for your continuous support.

Warm wishes,

the ES-MN team
